

Dear Sirs,

I have been an Amateur Radio operator for over ten years now.

I first was interested when I was 15 years old, but could not pass the Morse Code test. When the Technician license was created I got my license, but still I have a block on the Morse Code. I had to wait 25 years before I could get my Technician license. I am a very good Ham radio operator, and would like for the Morse Code testing to be removed from the Technician and General Licenses.

Please help me get on HF. Thank you,

Russell Greve
